

International Academy, Research, and Industry Association

Best Paper Award

A Distributed Scheduling Algorithm to Improve Lifetime in Wireless
Sensor Network based on Geometric Placement of Sensors with
Coverage and Connectivity Constraints

By

Diéry Ngom, Pascal Lorenz, Bamba Gueye

Presented during SENSORCOMM 2015, The Ninth International Conference on Sensor Technologies and
Applications, held in Venice, Italy - August 23 - 28, 2015

IARIA Board
