#### **Registration**

Each accepted paper needs at least one full registration, before the camera-ready manuscript can be included in the proceedings.

Registration fees are available at <http://www.iaia.org/registration.html>

**Aim:**

The goal is to bring together researchers, professionals, professors and students that are interested to address the scientific basis of new approaches for data mining, data processing and data analytics.

The topic suggested by the track can be discussed in terms of concepts, state of the art, research, standards, implementations, running experiments, applications, and industrial case studies. Authors are invited to submit complete unpublished papers, which are not under review in any other conference or journal in the following, but not limited to, topic areas.
