SMART 2017, June 25 - 29, 2017- Venice, Italy

The Sixth International Conference on Smart Cities, Systems, Devices and Technologies

<http://www.aria.org/conferences2017/SMART17.html>

Active and healthy ageing is one of the main aims for a sustainable health economy. Also trends in mobile health (care) solutions are advancing. Both together allow measuring, monitoring and therapeutical adjustments to pave the way for a personalized therapy and health care. This session is aimed at providing an overview about trends, methodologies, technology and economic approaches for future health economy. Technology developers will meet care providers and health care professionals.

Authors are invited to submit papers describing challenges and issues in topic areas such as:

- Sensors and algorithms for health
- Strategic developments in health care
- Active and assisted Living technologies and approaches
- Active and healthy ageing approaches
- Social care and community care concepts
- Evidence-based health care with personalized data
