along with

SPWID 2017, June 25 - 29, 2017- Venice, Italy

The Third International Conference on Smart Portable, Wearable, Implantable and Disability-oriented Devices and Systems

<http://www.iaria.org/conferences2017/SPWID17.html>

Recently, smart city technologies have been driving productivity, efficient energy management, economic growth, and quality of life of their citizens. This special track is intended to share the experiences about smart city technologies, applications, and field experiences.

The first topic includes new types of data collection technologies to create novel citizen-centric services and analysis technologies not only for spatio-temporal interpolation and extrapolation, but also actuation and control. The workshop is also interested in papers sharing smart city applications and/or smart city field experiences.

Topics:

Authors are invited to submit papers describing challenges and issues in topic areas such as:

- Smart City Data Collection and Analysis
- Smart City Applications
- Smart City Field Experiences
