Special and Regular Contributions

Despite the ups/downs of the virus, early submissions were more enthusiastic as everyone was hoping that the fall season will find us safe, but also virus-free. We wish this were the case and everyone could have attended in person and enjoyed the event.

For InfoSys 2020 Congress, out of 185 contributions (both regular and special tracks)(in the middle of pandemic), 69 were accepted (some, with a few rounds of cross-validations), yet only 56 camera-ready submitted; the decreased number was due to travel bans, corporate/university regulations, precaution, as well as of overwhelming online teaching duties.

Hope dies last! Hoping for better with ***InfoSys 2021***, May 16-20, Spain.

Be Safe and Stay Healthy!
