#### STELA MUSTEATA

Graduated in Clinical psychology and specialized in Neuropsychology at Vita-Salute San Raffaele University, Stela Musteata is a scientist of the Center for Advanced Technology in Health & Well-being. In this department she works as a research neuropsychologist on international research projects for SMARTer and HEALTHIER LIFE with expertise in cognitive intervention technologies and social robotics. Stela's previous research experience was at University of Victoria, in Canada, in the Division of Medical Sciences and in the Institute on Aging and Lifelong Health. SMARTBEAR

INTRODUCTION

SMARTBEAR

I.R.C.C.S. Ospedal San Raffaele

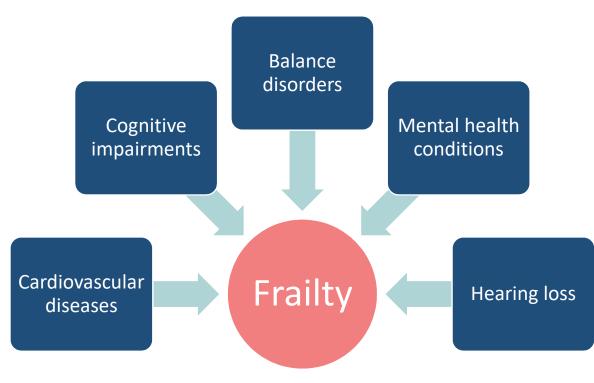

### **INTRODUCTION**

#### WHO (2014): "Ageing well" must be a priority

"Unless health systems find effective strategies to address the problems faced by an ageing world population, the growing burden of chronic disease will greatly affect the **quality of life of older people**"

7

#### **INTRODUCTION**

SMART BEAR targets **people over 65** to implement:

Management of chronic medical conditions	<ul> <li>Enhance self-awareness on the users' health status</li> <li>Support the self-management of the users' health conditions</li> <li>Enable evidence-based support for clinicians' decision making</li> </ul>
Healthy ageing	<ul> <li>Promote active living (physically and cognitively)</li> <li>Encourage healthy habits (socialization and nutrition)</li> <li>Provide conditions that facilitate safe, independent living</li> </ul>

8

#### RATIONALE

#### **HEALTHY AGEING**

Low probability of disease and disease-related disability

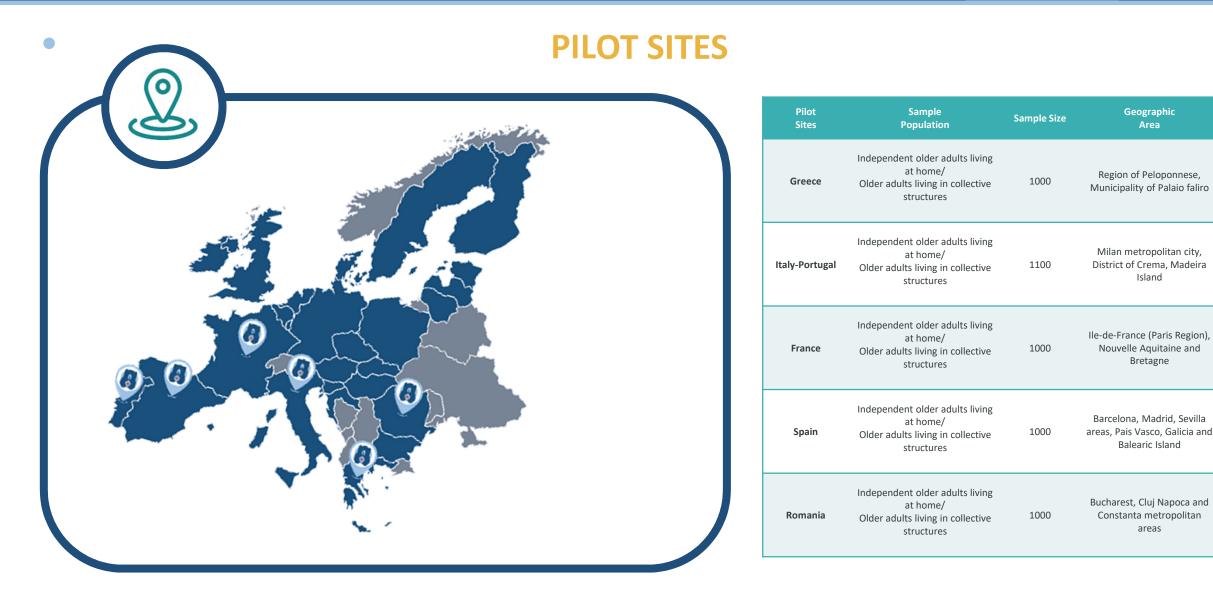

High cognitive and physical functional capacity

Active engagement with life

[Rowe JW, Kahn RL. Successful aging. *Gerontologist*. 1997;37(4):433–440]

5 Pilots with 5100 participants over 65

#### **SMART BEAR PERSONAL DEVICES**

Smartphone (Samsung Galaxy S10)

### **SMART BEAR PERSONAL DEVICES**

Smartphone (Samsung Galaxy S10)

Device	Parameters		
_	Duration of active use [hours or minutes]		
	Average duration of active use per day [hours or minutes]		
Phonak Marvel-50	Duration of exposure at environmental noise levels per day and per week [minutes]		
	Percentage of active use in soft/medium/high intensity sounds [percentage]		
	Body weight [kilogram or pound]		
	Body muscle mass [kilogram or pound]		
	Body bone mass [kilogram or pound]		
Body+	Body fat mass [kilogram or pound]		
	Body fat free mass[kilogram or pound]		
	Body fat ratio [percentage]		
	Diastolic Blood Pressure [mmHg]		
	Systolic Blood Pressure [mmHg]		
BPM Core	Heart Rate [beats per minute]		
	ECG signal [μV, time series]		
Thermon	Body Temperature [Celsius or Fahrenheit]		
Thermo	Skin Temperature [Celsius or Fahrenheit]		
iHealth Air	Blood oxygen saturation [percentage]		
ineaith Air	Pulse rate [beats per minute]		
	Number of steps [dimensionless number]		
	Distance traveled [meters]		
	Calories burned through activity [kCal]		
	Calories burned by Basal Metabolic Rate [kCal]		
	Intensity Minutes [minutes]		
Garmin VivoSport	Duration of vigorous/moderate/low activity [seconds]		
	Floors climbed [dimensionless number]		
	Average heart rate on last 7 days [beats per minute]		
—	Average heart rate at rest [beats per minute]		
	Sleep quality [label]		
_	Sleep duration [seconds]		
	Time spent in deep/light/REM sleep [seconds]

"Smart Big Data Platform to Offer Evidence-based Personalised Support for Healthy and Independent Living at Home"

# **SMART BEAR SCENARIOS**

- Identify the profiles of different categories of users and characterize them (personas)
- Design the platform to meet each profile's needs

#### Problems

- Sedentary lifestyle
- Bad diet habits
- High blood pressure

#### **Problems**

- Low mood
- Memory and concentration difficulty
- Hearing loss
- Unhealthy environment

**SMART BEAR SCENARIOS & INTERVENTIONS** 

#### **SMART BEAR SCENARIOS & INTERVENTIONS**

		Carlo (S1)	Lidia (S2)
Interventions	I1. Physical training	Х	
	I2. Diet plan	Х	
	13. Monitoring of physiological parameters	Х	
	I4. Psychoeducational intervention		Х
	I5. Monitoring of the mood		Х
	I6. Cognitive training		Х
	I7. Hearing training		Х
	I8. Environment Monitoring and adjustment		Х
Transversal functions	TF1. Data visualization	Х	Х
	TF2. Gamification	Х	Х
	TF3. Regular report	Х	Х
	TF4. Regular report to clinician	Х	Х
	TF5. Suggestion	Х	Х
	TF6. Reminder	Х	Х
	TF7. Data access to caregiver	Х	Х
	TF8. Tele-consulting	Х	Х

#### **SMART BEAR SCENARIOS & INTERVENTIONS: Carlo & Lidia**

Visualization of the collected data

Incentives for a better compliance to the plan

**Regular reports** 

Personalized tips and reminders

Access to data by a family member

**Remote medical** consultation
