

Freimut Bodendorf

Freimut Bodendorf, born 1953, graduated 1977 from the University of Erlangen-Nuremberg (School of Engineering) with a degree in Computer Science. 1981 he obtained his doctor degree (Ph.D.) in Information Systems. Subsequently he was head of an IS department at the University of Freiburg/Germany (School of Medicine), full professor at the Postgraduate School of Engineering in Nuremberg/Germany, and full professor at the Department of Computer Science and Information Systems at the University of Fribourg/Switzerland.

Career to Date:

Since 1990 he is head of the Department of Information Systems (Services –Processes – Information) at the University of Erlangen-Nuremberg (School of Management). He is member of the Supervisory board of the Regional Computing Center Erlangen, of the Executive Board of the Multimedia Technologies Committee at the University of Erlangen-Nuremberg, of the Executive Board of the E-Learning Committee at the University of Erlangen-Nuernberg, of the German National Association for Computer Science (Gesellschaft für Informatik, GI), of the Special Interest Group Business Informatics at the GI, of the German National Association for Higher Education in Business Management (Verband der Hochschullehrer für Betriebswirtschaft, VHB), of the Scientific Committee of the VHB, and of the International Association for Computer Information Systems. He is currently involved in a research program run by the Bavarian Research Cooperation (abayfor) and in several regional and international projects. He has also been involved in research cooperation programs with more than 20 companies and has been member of more than 30 international program committees. During the last years he received seven best paper awards for submissions to international conferences.

Publications/Articles:

He is author or co-author of 15 books and more than 200 refereed articles in national and international journals, books, and proceedings.

Editor and Editorial Boards:

He has been member of the editorial boards of the book series "Multimedia und Telecooperation" and "E-Learning", of the journals "Business Research", "Journal of Decision Systems", "Journal of Electronic Commerce in Organizations", "International Journal of Engineering and Education". He is member of various international scientific committees in the areas of information systems and systems engineering. He is currently IARIA Workgroup Board Chair.

Research Interests:

His main fields of research and expertise are Service Computing and Management, Service Oriented Architectures, Customer Interfaces and Customer Services, Self-Service Systems, Software Agents and Web Services, Autonomous and Self-organizing Systems, Process Monitoring and Controlling, Business Intelligence, Knowledge Based Systems, Soft Computing, Adaptive Systems, Individualization and Personalization, Media-based Education and Training, IT Strategies and IT Architectures.
