

Dr. Panos Nasiopoulos earned his Bachelor's degree in physics from the Aristotle University of Thessaloniki, Greece, and his Bachelor's, Master's, and Ph.D. degrees in electrical and computer engineering from the University of British Columbia (UBC), Canada. He is a professor with the Department of Electrical and Computer Engineering and the former Director of the Institute for Computing, Information and Cognitive Systems and the Master of Software Systems at UBC. Before joining UBC, he was the President of Daikin Comtec US (co-founder of DVD) and Executive Vice President of Sonic Solutions. His research interests are primarily in the area of intelligent digital media, visual information capture and delivery, artificial intelligence in digital media with focus on entertainment, security, autonomous driving, smart cities and health, he is the author or co-author of more than 300 research publications and holds several patents. Dr. Nasiopoulos is a registered member of the Association of Professional Engineers and Geoscientists of British Columbia (APEGBC), Canada. He is a Fellow of IEEE, a Fellow of the Canadian Academy of Engineering, and has been an active member of the Standards Council of Canada, MPEG, SMPTE and IEEE.

Panos has participated in many IARIA events as an author. Three recent papers published at IARIA conferences are:

- H. R. Tohidypour, Y. Wang, M. T. Pourazad, and P. Nasiopoulos, “A Deep Learning based Unoccupied Parking Space Detection Method for City Lots”, *International Conference on Intelligent Systems and Applications 2022*, Venice, May 2022.
- N. Mehajabin, D. Jin, R. Yao, T. Dykstra, M. T. Pourazad, P. Nasiopoulos “Epipolar Shift Compensated Light Field Video Quality Metric”, *MMEDIA 2022*, Barcelona, April 2022.
- N. Mehajabin, Y. Wang, H. Tohidypour, M. T. Pourazad and P. Nasiopoulos, “An Object-Based Refocusing Scheme for Light Field Video Content”, *International Conference on Advances on Societal Digital Transformation 2021*, Athens, November 2021.
