Canada Health Infoway has helped improve the health of Canadians by working with external partners to accelerate the development, adoption and effective use of digital health solutions across Canada. Established in 2001, Infoway is an independent, not-for-profit organization funded by the federal government.

This track will shed light on how Infoway has set the agenda for the growth of digital health across the country through the establishment of governance and funding structures, development of pan-Canadian standards, and investment in digital health infrastructure, adoption and research/evaluation.

Subtopics include the following:

- National digital health strategy: Canada's funding and implementation approach for digital health
