Call for Contributions

Submission:
1. Inform the Chair: with the Title of your Contribution
2. Submission URL:
   https://www.iariasubmit.org/conferences/submit/newcontribution.php?event=COCORA+2018+Special
Please select Track Preference as MEC&VERTICALS

Special track

MEC&VERTICALS: Multi-Access Edge Computing (MEC) and its Impact on Verticals

Chair and Coordinator
Dr. Valerio Frascolla, Director Research and Innovation, Intel Deutschland GmbH - Neubiberg, Germany
valerio.frascolla@intel.com

along with
COCORA 2018, The Eighth International Conference on Advances in Cognitive Radio
April 22, 2018 to April 26, 2018 - Athens, Greece
http://www.iaria.org/conferences2018/COCORA18.html

Multi-Access Edge Computing (MEC) is considered a key enabling technology for the forthcoming 5G networks. In the last couple of years lots of efforts have been spent in standardization bodies (ETSI and also 3GPP) to deliver to the telecommunication ecosystem a set of standards that can be adopted by device and network providers. The expected benefits of the MEC technologies are manifold: overall latency reduction, access to local-access network conditions, enhanced caching, intelligent allocation etc. etc. The players that will benefit most of this technology will be mainly all the 5G verticals that look for a wireless communication that can reduce the reaction time and can guarantee local availability of a huge amount of needed data.

This special session will make the point of the standards body status, will report the latest on some international collaborative research projects and will overall provide the audience with an up-to-date understanding of what still is outstanding for having the MEC technology deployed in commercial networks.

Prospective authors are invited to submit original papers on topics including, but not limited to:
- MEC network architecture and protocols
- mmWave network architecture and protocols
- MEC-related business model analysis
- mmwave-related business model analysis
- Theoretical limits and trends of caching in mmWave networks
- Fundamental tradeoffs in MEC-empowered mmWave networks
- Coded Caching in mmWave Networks
- Edge Caching techniques for 5G
- Wireless Content Caching at mobile handset
- Computational Resource allocation in Wireless Caching Networks
- Joint radio and computational resource optimization in MEC-empowered mmWave networks
- MEC resources allocation and management
- MEC simulators, demonstrators and platforms
- mmWave simulators, demonstrators and platforms
- Challenges and opportunities for MEC and mmWave
• MEC impact on 5G Verticals

Important Datelines
- Inform the Chairs: As soon as you decided to contribute
- Submission: January 17, 2018 February 28, 2018
- Notification: February 22, 2018 March 5, 2018
- Registration: March 8, 2018 March 10, 2018
- Camera ready: March 15, 2018 March 20, 2018

Note: These deadlines are somewhat flexible, providing arrangements are made ahead of time with the chair.

Contribution Types
- Regular papers [in the proceedings, digital library]
- Short papers (work in progress) [in the proceedings, digital library]
- Posters: two pages [in the proceedings, digital library]
- Posters: slide only [slide-deck posted on www.iaria.org]
- Presentations: slide only [slide-deck posted on www.iaria.org]
- Demos: two pages [posted on www.iaria.org]

Paper Format
- See: http://www.iaria.org/format.html
- Before submission, please check and comply with the editorial rules: http://www.iaria.org/editorialrules.html

Publications
- Extended versions of selected papers will be published in IARIA Journals: http://www.iariajournals.org
- Print proceedings will be available via Curran Associates, Inc.: http://www.proceedings.com/9769.html
- Articles will be archived in the free access ThinkMind Digital Library: http://www.thinkmind.org

Paper Submission
https://www.iariasubmit.org/conferences/submit/newcontribution.php?event=COCORA+2018+Special
Please select Track Preference as MEC&VERTICALS

Registration
- Each accepted paper needs at least one full registration, before the camera-ready manuscript can be included in the proceedings.
- Registration fees are available at http://www.iaria.org/registration.html
