

# The Ninth International Conference on Ambient Computing, Applications, Services and Technologies AMBIENT 2019

September 22 - 26, 2019 -Porto, Portugal

http://www.iaria.org/conferences2019/AMBIENT19.html

# Important deadlines:

Submission (full paper) May 13, 2019
Notification July 13, 2019
Registration July 27, 2019
Camera ready August 7, 2019

### Tracks:

## Track 1: Ambient computing environments, sensors and hardware

Fundamental for ambient computing and mechanisms; Environmental sensing and computing; Distributed ambient and artificial intelligence; Autonomic ambient networks and communications; Smart environments and applications; Ubiquitous and mobile computing

# Track 2: Ambient computing and modeling

Sentient Computing; Tracking and sensing networks; Location-based computing; Ambient context modeling and reasoning; Context-aware computing; Local and global sensing; Multi-sensory and multi-modal fusion; Citizen-oriented urban computing

## Track 3: Ambient devices, applications and systems

Ambient media and devices; Ambient content and methods for adding intelligence to media objects; Sentient offices; Smart phones; Glasses and filters for ambient game and movie; Social networks and social computing; Semantic-location; Body sensors; Wearable devices; Smart sensors; Smart technologies (smart home, smart metering, smart grids, smart sensors, smart home appliances, etc.)

# Track 4: Ambient services, technology and platforms

Personalized services; Ambient assisted living (AAL); Social games; Domotics (Home Automation); Domestic robotics; Intelligent homes; Tele-care and Telemedicine; Mobile media; Mobile learning; Emergency services; Ambient-oriented technologies (wireless, social networks); Universal access; Ambient platforms; Ambient and mobile social networks

# **Track 5: User Friendly Interfaces**

Haptic interfaces; Smart user interfaces; Ambient interfaces (touch, gesture, haptics, biometrics); Multimodal interfaces and interaction

### Track 6: Ambient Business Models, Privacy and Trust

Business model and business cases, security, privacy and trust, Real-life implementations
