ACCSE 2019, The Fourth International Conference on Advances in Computation, Communications and Services

July 28, 2019 to August 01, 2019 - Nice, France

<https://www.iaria.org/conferences2019/ACCSE19.html>

GIT surely transforms and benefits various aspects in an organization. From developing the marketing team to upgrading the customer support services and everything in between can have a massive improvement. With highly-evolved branching capabilities, GIT makes it extremely easy visualize and merge the various facilities to a control system, thus, allowing the work process to be flexible. It is all about efficiency and eliminates most of the time that could get wasted

Topics include, but not limited to:

- Information theory on energy efficiency;
- Smart Grid;
- Protocols and protocol extensions for energy efficient networks; Network load balance and smart information storage;
- Energy-efficient networking;
- Cross-layer optimizations to minimize energy consumption on a network scale;
- Cognitive, cooperative and reconfigurable networks;
- Harvesting distributed energy generation;
- Spectrum sensing and spectrum management;
- Dynamic spectrum access;
- Remote power management for wireless terminals and access networks;
- Regulations and standards
