Please select Track Preference as **MicS-2019**

Special track

MicS-2019: MicroServices

Chair and Coordinator

Prof. Dr. Andreas Hausotter, Hochschule Hannover - University of Applied Sciences and Arts, Hannover,
Faculty of Business and Computer Science, Germany andreas.hausotter@hs-hannover.de

Co-Chairs

Prof. Dr. Arne Koschel, Hochschule Hannover - University of Applied Sciences and Arts, Faculty of Business
and Computer Science, Germany

arne.koschel@hs-hannover.de

Dr. Marc Schaaf, FHNW, School of Business, Institute for Information Systems, Switzerland

marc.schaaf@fhnw.ch

along with

SERVICE COMPUTATION 2019, The Eleventh International Conference on Advanced Service Computing

<https://www.iaria.org/conferences2019/SERVICECOMPUTATION19.html>

May 05, 2019 to May 09, 2019 - Venice, Italy

Microservices represent a relative new architectural concept, according to which applications are composed by a great number of loosely coupled small services. The services are designed and developed by autonomous teams largely independent from one to another.

This promotes the agility of the underlying tasks and ideally enables a continuous software release (*continuous delivery*), a better maintainability and the provision of high scalable application systems. On the other hand, the introduction of Microservices has a significant impact on the project organization, deployment and operations (*DevOps*).

Last but, not least, some drawbacks might be accepted. The special track should illuminate the strategic, organizational, architectural, technological aspects of micro-services as wide as possible.

Topics of MicS-2019 encompass, but are not limited to:

- Suitable procedure models in software development
- Opportunities and risks associated with development and operations SOA vs. Microservices
- Service design and design patterns for microservices
- Application scenarios
- Microservices and legacy applications
- Technologies and infrastructures
- Case studies and emerging technologies
- Tools for design, implementation and management
- QoS aspects of microservices
- Testing, evaluation and analysis

Important Datelines

- Inform the Chair: *As soon as you decided to contribute*

- Submission: March 10, 2019
- Notification: March 30, 2019
- Registration: April 8, 2019
- Camera-ready: April 8, 2019

Contribution Types

- Regular papers [in the proceedings, digital library]
- Short papers (work in progress) [in the proceedings, digital library]
- Posters: two pages [in the proceedings, digital library]
- Posters: slide only [slide-deck posted on www.iaia.org]
- Presentations: slide only [slide-deck posted on www.iaia.org]
- Demos: two pages [posted on www.iaia.org]

Paper Format

- See: <http://www.iaia.org/format.html>
- Before submission, please check and comply with the editorial rules: <http://www.iaia.org/editorialrules.html>

Publications

- Extended versions of selected papers will be published in IARIA Journals: <http://www.iaiajournals.org>
- Print proceedings will be available via Curran Associates, Inc.: <http://www.proceedings.com/9769.html>
- Articles will be archived in the free access ThinkMind Digital Library: <http://www.thinkmind.org>

Paper Submission

<https://www.iaiasubmit.org/conferences/submit/newcontribution.php?event=SERVICE+COMPUTATION+2019+Special>
Please select Track Preference as **MicS-2019**

Registration

- Each accepted paper needs at least one full registration, before the camera-ready manuscript can be included in the proceedings.
- Registration fees are available at <http://www.iaia.org/registration.html>
