## The Seventeenth International Conference on Autonomic and Autonomous Systems

ICAS 2021

May 30 - June 3, 2021 - Valencia, Spain

<http://www.aria.org/conferences2021/ICAS21.html>

### Important deadlines:

Submission (full paper)	March 23, 2021
Notification	April 12, 2021
Registration	April 26, 2021
Camera ready	May 1, 2021

### Tracks:

- SELFRENDS: Toward brain-like autonomic and autonomous systems
- ROBOTRENDS: Robot-related trends
- SOCIAL ROBOTS: Social robots and cognition
- MACHINE LEARNING: Advanced topics in Deep/Machine learning
- SYSAT: Advances in system automation
- UNMANNED: Driver-less cars and unmanned vehicles
- AUTSY: Theory and practice of autonomous systems
- AWARE: Design and deployment of context-awareness networks, services and applications
- AUTONOMIC: Autonomic computing: design and management of self-behavioural networks and services
- CLOUD: Cloud computing and Virtualization
- MCMAC: Monitoring, control, and management of autonomous self-aware and context-aware systems
- CASES: Automation in specialized mobile environments
- ALCOC: Algorithms and theory for control and computation
- MODEL: Modeling, virtualization, any-on-demand, MDA, SO
- SELF: Self-adaptability and self-management of context-aware systems
- KUI: Knowledge-based user interface
- AMMO: Adaptive management and mobility
