ICIMP 2021, The Sixteenth International Conference on Internet Monitoring and Protection

<https://www.aria.org/conferences2021/ICIMP21.html>

May 30/June 3, 2021 Valencia, Spain

The technology advances changed the working behaviour which the workplace is no longer a physical location. The interest in the Digital Workplace (DW) is increasing with the recent demands for digital transformation. The COVID-19 and need for the remote working expedite the digital transformation in many daily-life scenarios such as education, and business. However, security and privacy are the critical factors of the digital transformation that need to be investigated.

The traditional security and privacy solutions focus on the techniques that are designed for geographically distributed workplaces. However, the digital workplace can be anywhere around the world. Hence, we need to revisit the workplace issues for Digital Transformation in Digital Workplace.

We encourage contributions ranging from theoretical studies, humanity studies, and prototypes that demonstrate the Security and Privacy Challenges for Digital Transformation in Digital Workplace.

### **Topics include, but not limited to:**

- Workplace Privacy and Employee Monitoring
- Digital Ethics and Privacy at Work
- Access control and authorization in DW
- Application Security, Attacks, and Defences in DW
- Intrusion Detection and Prevention in DW
- Malware and unwanted software
- Trustworthy Computing in DW
- Security of Digital Workplace
