Submission deadline	February 24, 2022
Notification	March 20, 2022
Registration	April 3, 2022
Camera ready	April 10, 2022

Tracks:

- **Architectures and frameworks**
- **Signal processing theory and methods**
- **High speed signal processing: integrating 5G and IoT with satellite networks**
- **Agricultural signal applications**
- **Signal/image metrics**
- **Features and models for images/signals**
- **Image/signal computation and services**
- **Special signal, image and video processing applications/domains**
- **Hands-free speech communication and microphone arrays**
- **Wearable sensor signal processing**
