

Ostfalia

Hochschule für angewandte
Wissenschaften

The Ninth International Conference on Advances and
Trends in Software Engineering
Venice | April 24 to April 28, 2023

SOFTENG 2023

A Model Library Tool for Holistic Embedded Software Design

Sven Jacobitz and Xiaobo Liu-Henke

Sve.jacobitz@ostalia.de

Ostfalia University of Applied Sciences

– Hochschule Braunschweig/Wolfenbüttel · Salzdahlumer Str. 46/48 · 38302 Wolfenbüttel

Department of Mechanical Engineering – Institute for Mechatronics – Research Group Control Engineering and Automotive Mechatronics

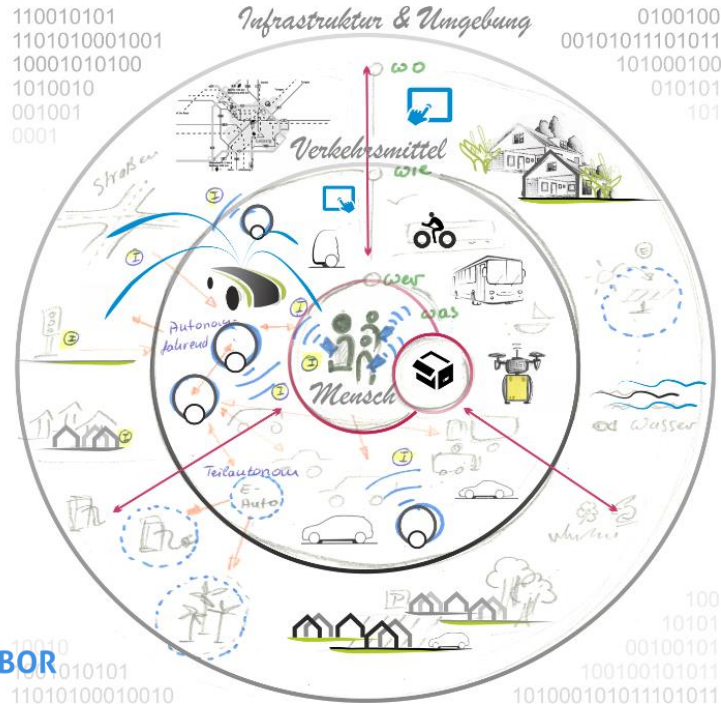

- Introduction
- Concept of the model library
- Model library design and realization
- Summary and future work

Motivation and state of the art

- Increase of system complexity
- Shorter development times
- Increase reusability
- Version and configuration management
- Difficult in Model-Based Design
- Currently no holistic, universal solution

Lower Saxony Future Lab Mobility

Key data

- 10/2019 - 09/2024
- 3.700.000 €
- 4 Subprojects
- 15 scientific partners
- More than 25 practical partners

Founding:

**ZUKUNFTSLABOR
MOBILITÄT**

Sven Jacobitz, M.Eng. | SOFTENG 2023

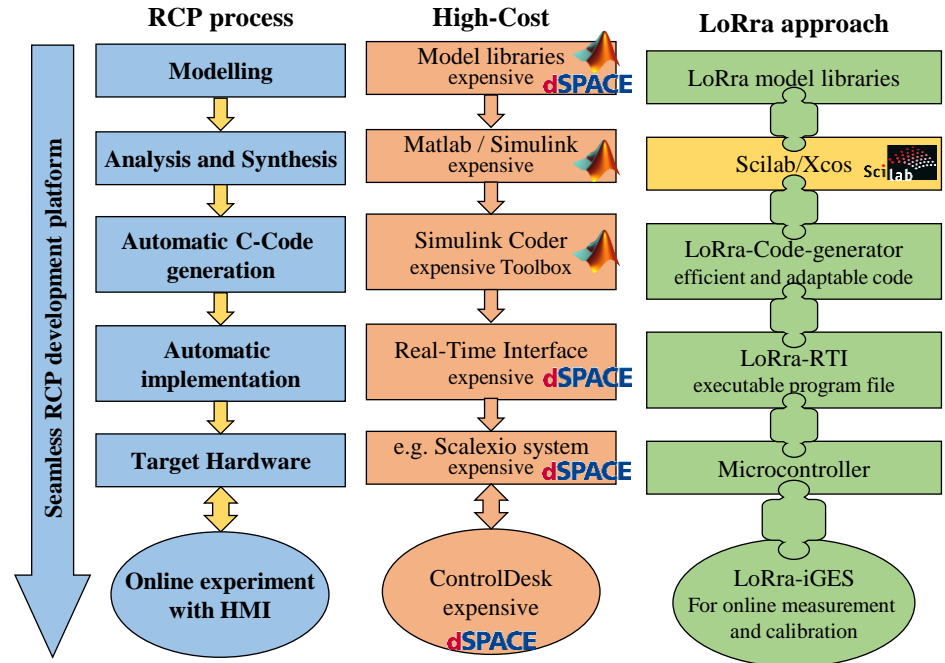

Volkswagen**Stiftung**

Niedersächsisches Ministerium
für Wissenschaft und Kultur

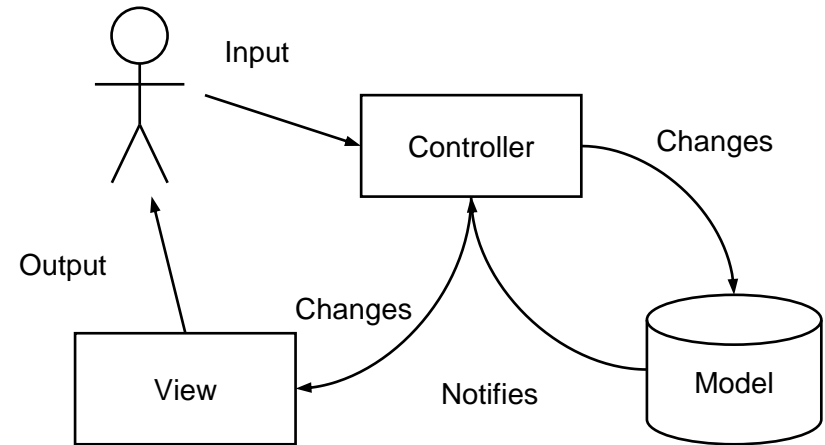

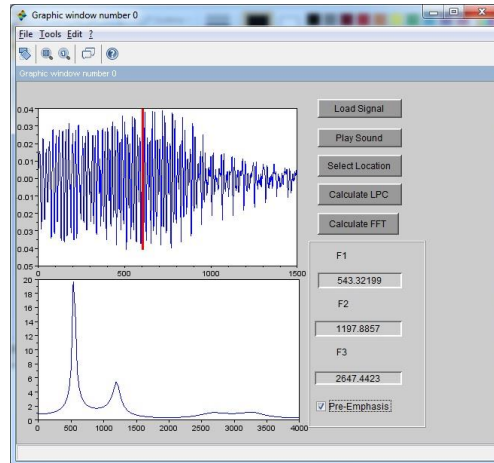

Development methodology and platform

- Holistic RCP-process
 - Model based
 - Seamless tool supported
 - Highly automated
- LoRra approach
 - Open-Source Software
 - Microcontroller

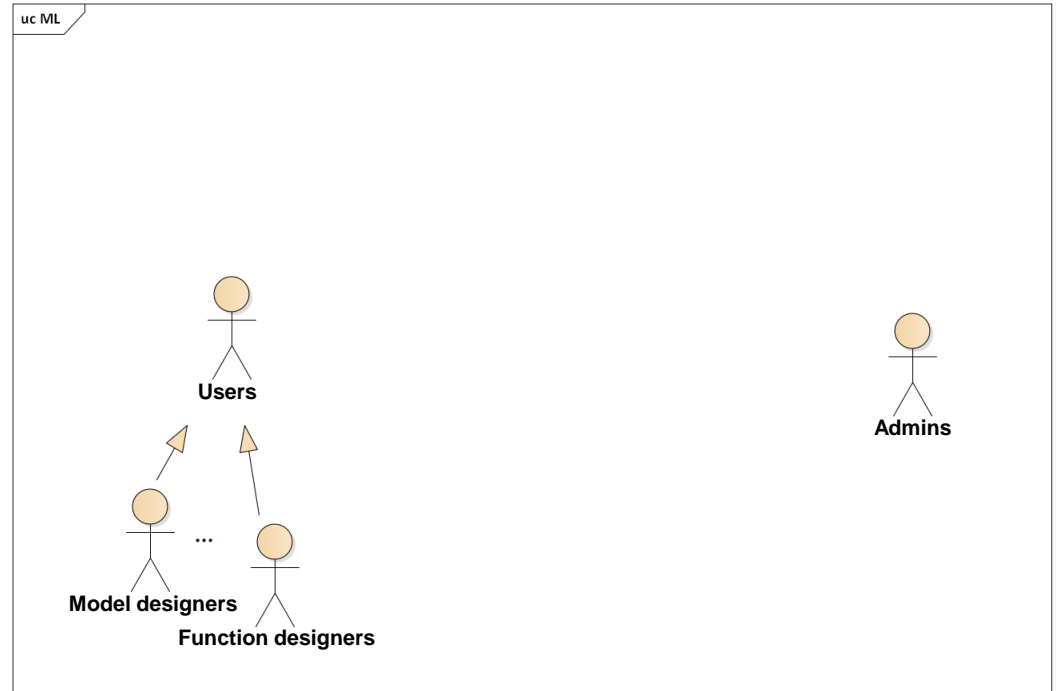

Human Machine Interface development approaches

- Independence from the runtime environment
- Architecture pattern

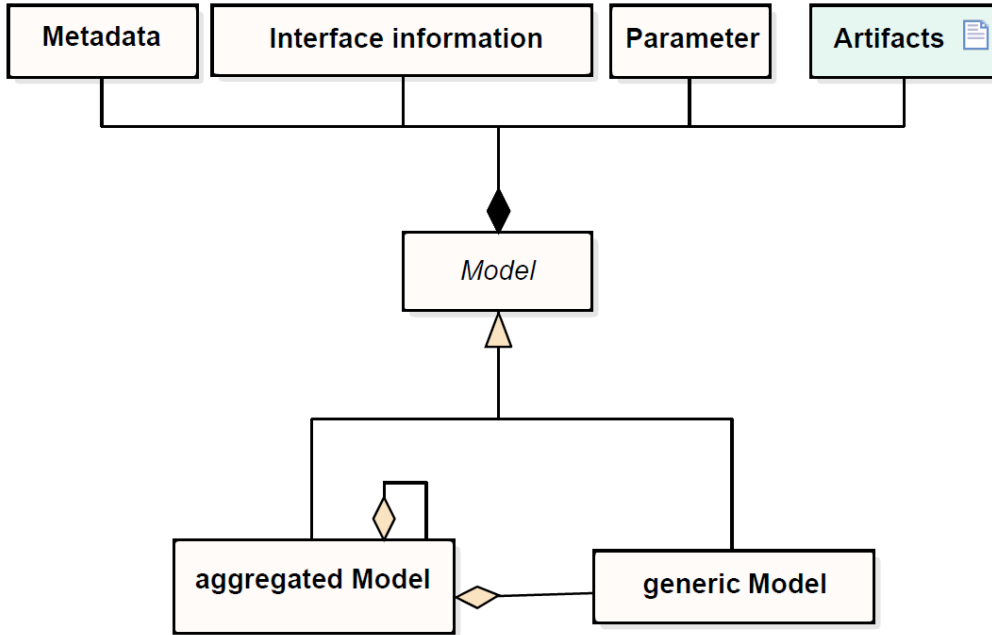

Model library requirements

- User Groups
 - Users
 - Administrators
- Data management of hierarchical models
 - Version management
 - Configuration management
 - Variant management
 - ...

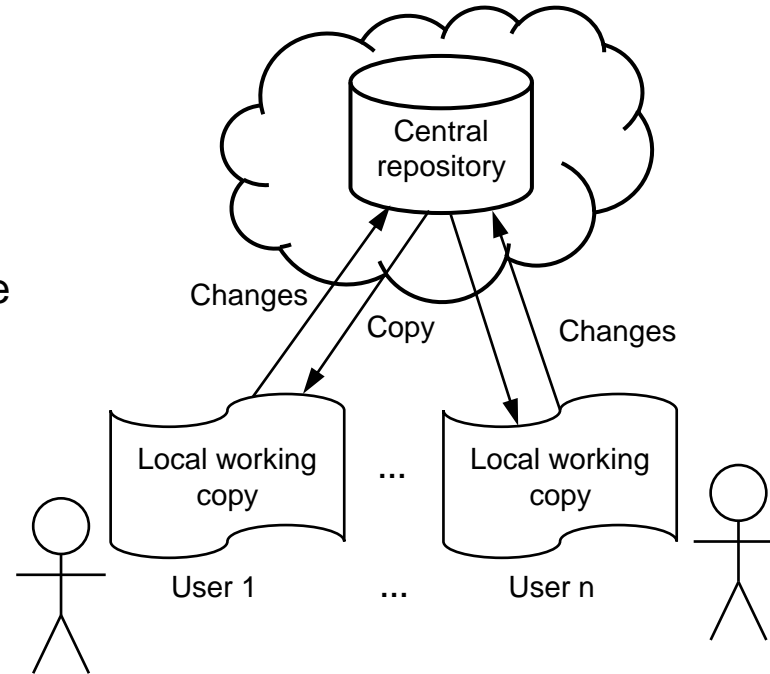

Basic idea of the concept

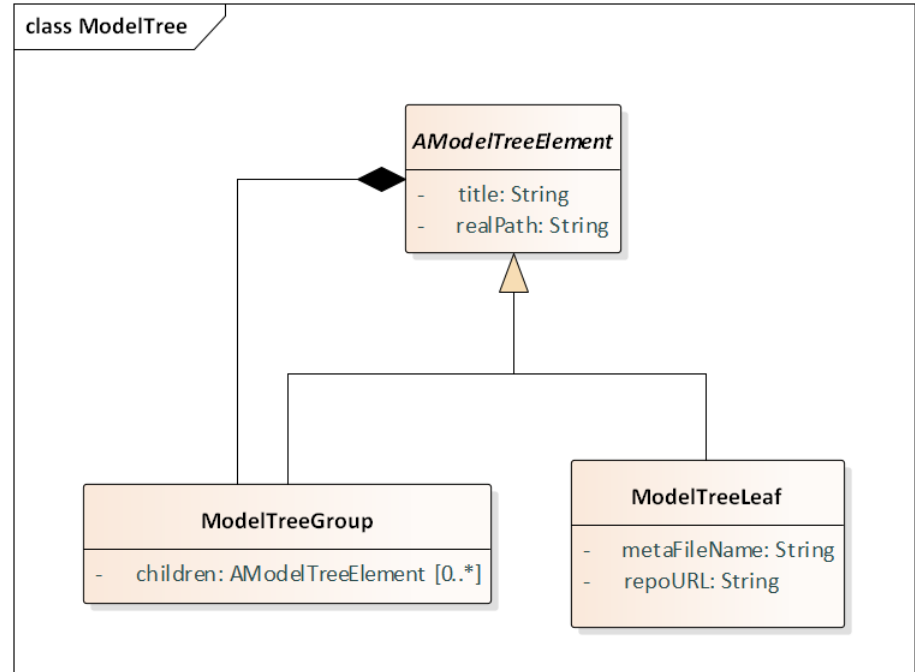

Basic idea of the concept

- Working in distributed teams
- Approach:
 - Local working copy
 - Central repository as cloud storage
- Operation-based change management

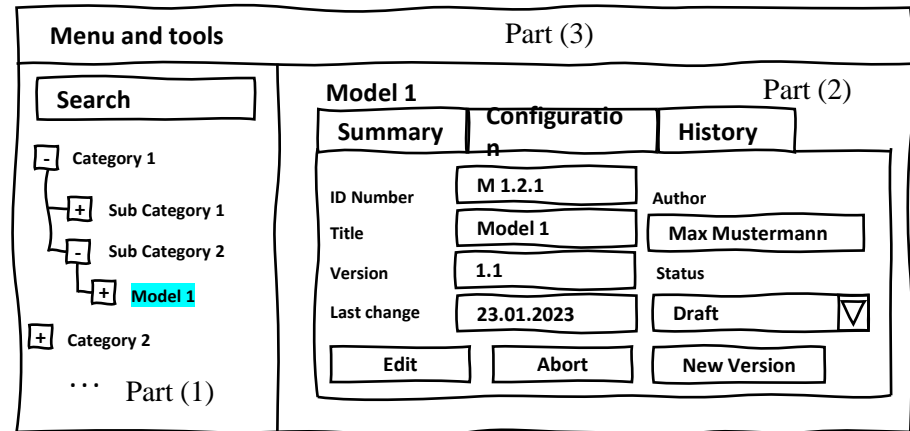

Data structures and management

- Object-oriented
- MVC-Approach
- Configuration and version management using GIT
- Release management

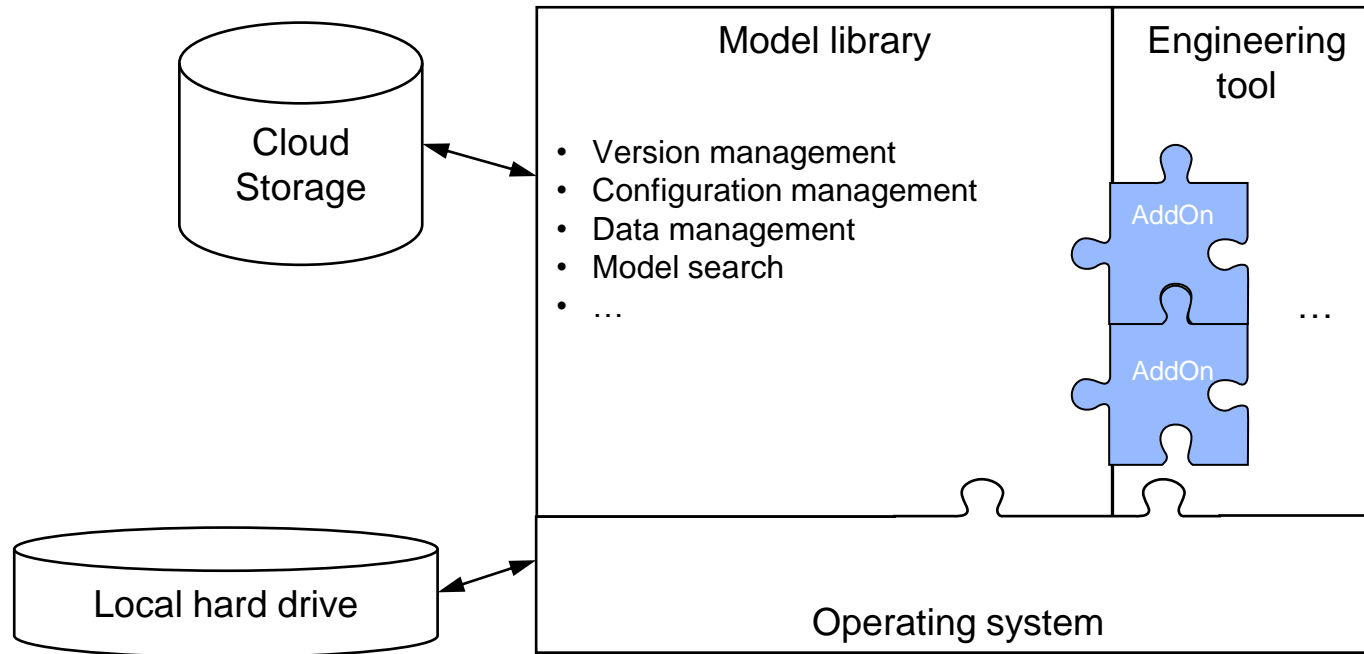

Graphical user interface

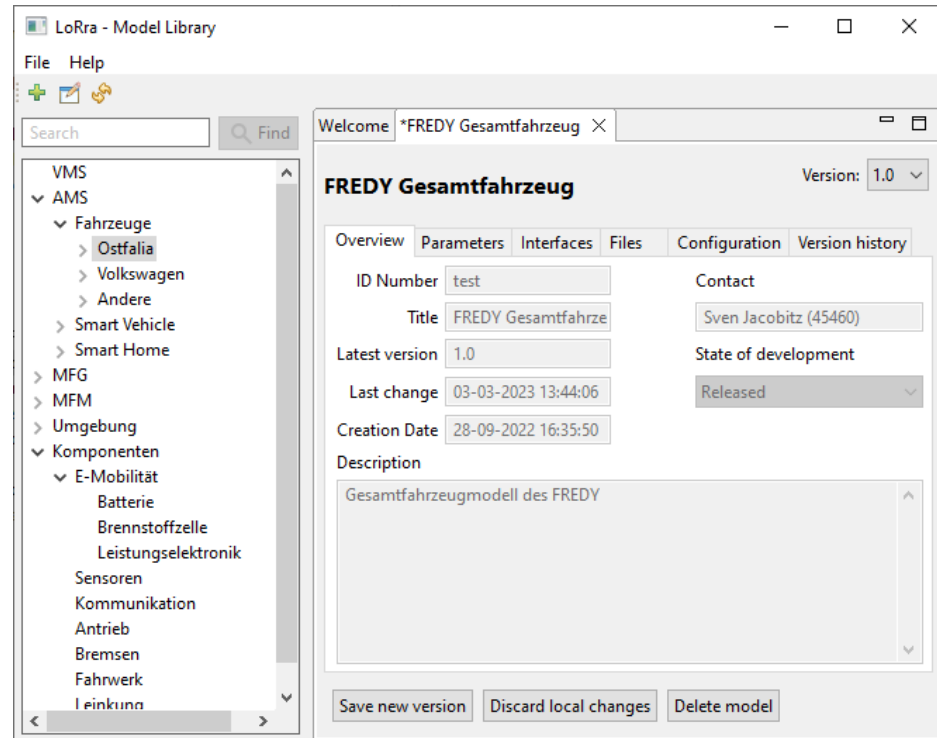

- Simplify usage processes
- Find models easily
- Edit metadata
- View model history
- Release processes
- ...

Realization

- Holistic model library
 - Version management
 - Configuration management
- Not bound to specific engineering tool
- Further functions
