May 26, 2024 to May 30, 2024 - Barcelona, Spain

We cordially invite you to participate in the Special Track EDUSEM at our upcoming eKNOW 2024 series / DigitalWorld 2024 Congress, which focuses on the emergent areas using semantic technologies in the field of education to foster the digital transformation and alignment of the sector to the current dynamic development of the field.

The special track provides an ideal platform to present and discuss insights, applications, innovations, and cutting-edge research in the field of semantic technologies in a workshop atmosphere. We encourage you to submit both long and short papers and idea papers. In addition, we look forward to demos and posters on current solutions being developed in academia or collaborations with industry.

Topics include, but not limited to

- Verifiable Credentials (VC) and Educational Verifiable Credentials (EVC)
- The European Learning Model (ELM)
- Innovations and applications of the ELM in individual Education Institutions
- Micro Credentials
- Recognition of Prior Learning and representation of Informal Learning
- Curricula Design using Semantic Technologies
- Semantic Technologies for Learning Analytics
- Process Management in Education Institution
- Interoperability of educational programs and educational institutions
- Policy considerations for Semantic Technologies in Education
