

Dr. Erwin Pesch

Erwin Pesch studied Mathematics and Computer Science at the Technical University Darmstadt. He was employed as a Software Engineer and a research assistant at the Commerzbank AG and the business institute of the Technical University Darmstadt, respectively. He worked as an assistant professor at the Faculty of Economics and Business Administration of the University in Maastricht (Netherlands) and as a full professor at the Institute of Economics of the University in Bonn. Currently, he is a full professor at the Faculty of Economics and Business Administration of the University in Siegen and director of the Center for Advanced Studies in Management (CASiM) at the HHL Leipzig Graduate School of Management.

He holds a Ph.D. in Mathematics and a Habilitation in Business Administration both from the Technical University Darmstadt. His research areas are in Logistics, Decision Support, Project Management, Personnel Planning and Scheduling many of which are closely related to different industry projects.

He is author or co-author of 6 books and has published more than 200 papers in many international top journals.

He is area or associate editor of 12 scientific journals, has frequently been a keynote or plenary speaker at international conferences, and was responsible for the organization of the ECCO 2001 and the EURO 2009 conference in Bonn that attracted more than 2500 delegates. He is laureate, among others, of the prestigious Copernicus Award and the Science Award of the German Operations Research Society.
