

## **Prof. Goutam Chakraborty**

Prof. Goutam Chakraborty received his Ph.D. in 1993 from Tohoku University, Japan. From 2000, he was a full Professor and head of the Intelligent Informatics laboratory, Department of Software and Information Science, Iwate Prefectural University, Japan, till 2020. Presently, he is Distinguished Professor and Dean of Global Initiative for Innovation, MITS, India. He has published around 300 papers in reputed journals and conference proceedings. His research interests are Machine Learning, Soft Computing algorithms including deep-neural networks and their applications to solve pattern recognition, prediction, scheduling and optimization problems, including applications in wired and wireless Networks. He is interested in the analysis of various time-series signals like ECG, EEG, and other bio-signals, for health/medical applications. He also contributed in the area of text-mining, matrix completion problem and recommendation systems. He is a senior life member of ACM, and IEEE
