

Dr. Jounsup Park is an Assistant Professor in the Department of Electrical Engineering at The University of Texas at Tyler since Fall 2020. He completed his postdoctoral training in Coordinated Science Lab at the University of Illinois at Urbana-Champaign, Illinois in 2020. Dr. Park received his Ph.D. in Electrical Engineering from the University of Washington, Seattle, Washington in 2018. He received his B.Sc. and M.Sc. in Electrical Engineering from Korea University, Seoul, Korea, in 2006 and 2008, respectively. From 2008 to 2012, he was with Cooperate Research Institute of Samsung Electro-Mechanics, Inc., Suwon, Korea. His research interest includes multimedia networking, wireless communication, and AR/VR quality of experience. He is a director of Advanced Multimedia Processing Lab (AMPL) at UT Tyler. AMPL Lab is dedicated to developing new multimedia computing algorithms to deliver better VR/AR data over the wireless network more efficiently and to measure multimedia experience to gather data and improve algorithms.
