

Tala Bazzaza

Tala Bazzaza earned her B.A.Sc in Computer Engineering from the University of Sharjah, United Arab Emirates, and subsequently completed her M.A.Sc degree in Electrical and Computer Engineering at the University of British Columbia (UBC) in Vancouver, Canada. Currently, she holds the position of Scientific Engineer at UBC, where she oversees research initiatives at the Digital Multimedia Lab and provides supervision to a significant cohort of graduate students. Her research interests lie in the dynamic field of Artificial Intelligence, with a specific focus on advancing Video Driven Information Applications. Her contributions extend across various domains, including Smart Cities, Intelligent Transportation, Digital Health, and Entertainment. Tala has been an active member of the IEEE and through her work, she has pioneered novel algorithms, secured patents, and contributed to publications that showcase the innovation she brings to the intersection of AI and diverse application domains.
